

ZAKŁAD ROLNICZO – PRZEMYSŁOWY „FARMUTIL HS” S.A.

ENVIRONMENTAL POLICY

Zakład Rolniczo – Przemysłowy "Farmutil HS" S.A. strives to maintain its leading position in the field of processing of animal by-products and the production of derivatives in the form of meat and bone meal and animal fats on the domestic and foreign markets.

The company strives to conduct business in an environmentally friendly manner.

As part of our activities, we have implemented an environmental management system that meets ISO 14001:2015 standards in areas related to the generation of steam and heat for technological processes using natural gas, animal fat, heavy fuel oil and biomass in the Plant for the Production of Energy from Renewable Energy Sources and the PILUTIL and EKOUTIL Processing Plants in Śmiłowo.

We are committed to complying with applicable environmental legislation and to fulfilling obligations relevant to the context of the organization, preventing pollution and continuously improving the effects of environmental activities.

Where possible, we will strive to reduce waste and reduce the consumption of electricity, natural gas and other fuels.

We also aim to reduce our impact on climate change by reducing greenhouse gas emissions, increasing energy efficiency and supporting the use of renewable energy sources. In our activities, we are guided by the principle of rational management of natural resources.

We guarantee that all our activities and products meet the requirements of legal regulations in force in the country and in the European Union.

By implementing our Environmental Policy, we are constantly improving our processes towards pollution prevention through the implementation of environmental goals, tasks and programs.

An important element of our policy is also to raise the environmental awareness of employees and develop knowledge about their role in environmental protection.

The Environmental Policy has been established by the company's top management, and all employees are familiar with its content and implement the resulting goals and assumptions.
